

Online Scheduling

from the comfort of home

Schedule your visit to the ER/Urgent Care by holding your spot in line, online. Simply select an available location and time that works best for you and skip the waiting room to do most of your waiting from the comfort of home. Once you arrive at your selected time, you should be seen promptly by a medical professional.

If your condition is life threatening, do NOT use Online Check-in. Call 911 or go immediately to the nearest emergency department.

Learn More About Online Scheduling

- Is my reservation time a guarantee?
- No, it is not. The urgent care will do its best to see when you arrive, but if there are sicker patients ahead of you, they may be seen first.
